```
import java.util.Scanner;
class Question_1 {
    public static void main(String[] args) {
        Scanner sc = new Scanner(System.in)
        System.out.println("Enter an integer : ");
        int x = sc.nextInt();
        System.out.println("The entered integer is : " + x);
    }
}
```

Maam, I couldn't install java on pc yet, so couldn't run the scanner import online
